Call today! Our expert building consultants are standing by 24 HOURS A DAY to answer your questions, get you the highest Quality Product, and help you choose the Armor building that suits your needs!

Commercial

Armor's expert Dealer consultants will recommend the perfect building for your needs. It doesn't matter if you need a building for a small retail store, or a giant office complex for a Fortune 500 Company.

The factory's engineers can design a building of any size, suitable for any need imaginable. These buildings are virtually maintenance-free and built to withstand the worst that Mother Nature has to offer.

Churches

If your congregation needs a new worship space, family center, gymnasium, or classrooms, Armor can custom design the building to meet your needs. In addition, Armor's strict quality control department ensures that all buildings meet or surpass local building codes.

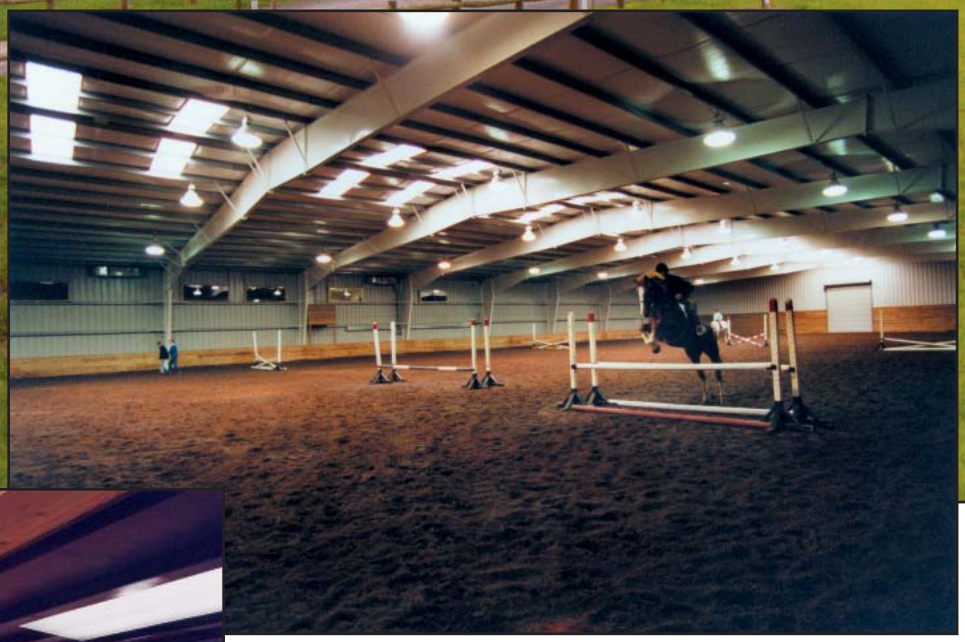
Horse Barns & Arenas



Armor buildings make good horse sense! Armor can design a custom arena or stall complex to your exact specifications. With a 25 year warranty, easy bolt-up rigid frame construction, and plenty of room for workshops and offices, you've got Armor's guarantee.

25 year guarantee

Farming

Your equipment, grain, livestock, and other valuable investments are safe, even from the harshest weather conditions, with an Armor steel building. Our buildings give you that sense of security because they are engineered and built to the highest standards of quality.

Warehousing

Armor is the solution to your warehousing woes. Our Dealers save you time and money by reducing traditional construction time associated with brick, wood, or block structures. Each building is fully customizable with a variety of ceiling lights, windows, insulation, doors, and more.

Garages & Workshops

Keeping your car or truck sheltered from damaging rain, snow and sun has never been so easy and cost effective.

Our residential steel garages go up faster than traditional brick or wood frame garages. With ten vivid colors and four matching trim colors, it's easy to match your home's exterior.

If you have always dreamed of having your own garage or backyard workshop, let us help you today.

The Factory

The factory's manufacturing facility is one of the most sophisticated in the steel building industry. The engineers, advanced computer technologies, and precise machinery exemplify the commitment to quality.

Because the factory is automated using CNC technology, they are able to produce higher quality components in less time than competitors, which allows us to pass substantial savings to you.

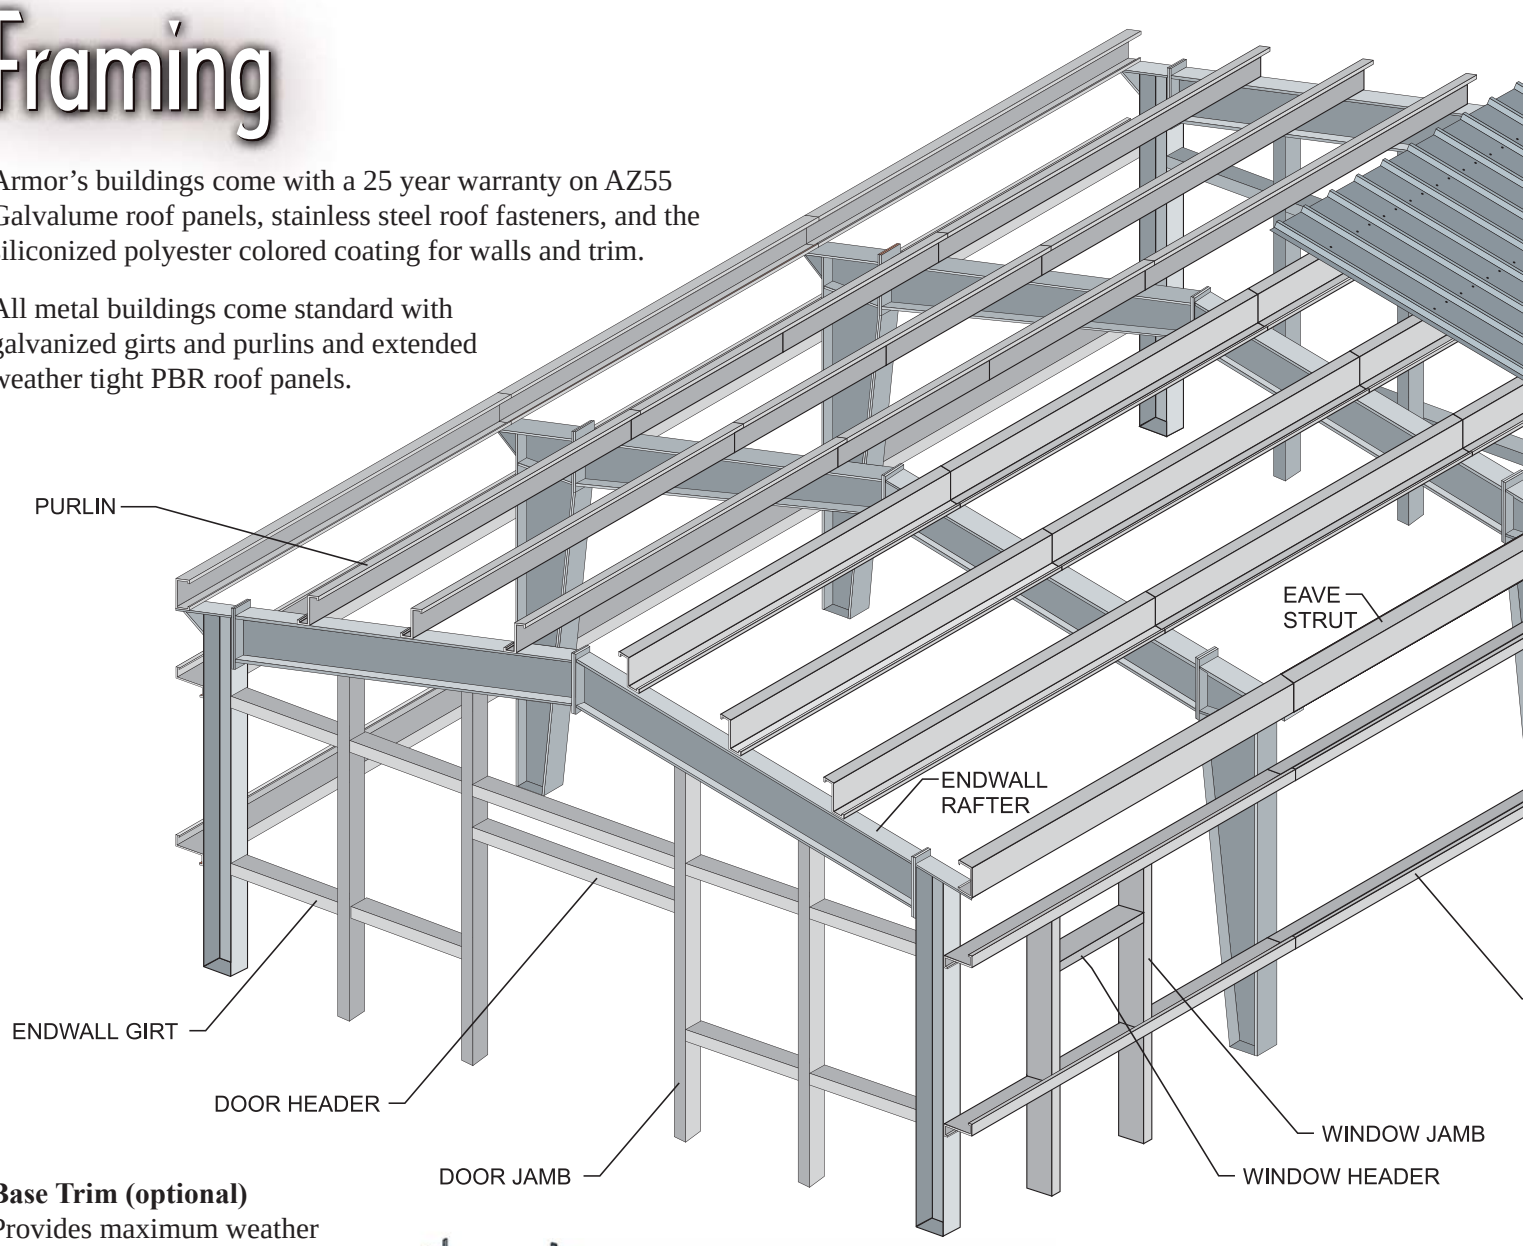
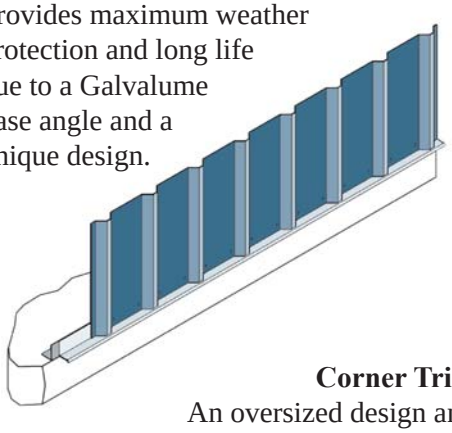
Framing

Armor's buildings come with a 25 year warranty on AZ55 Galvalume roof panels, stainless steel roof fasteners, and the siliconized polyester colored coating for walls and trim.

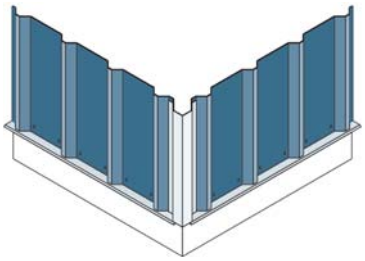
All metal buildings come standard with galvanized girts and purlins and extended weather tight PBR roof panels.

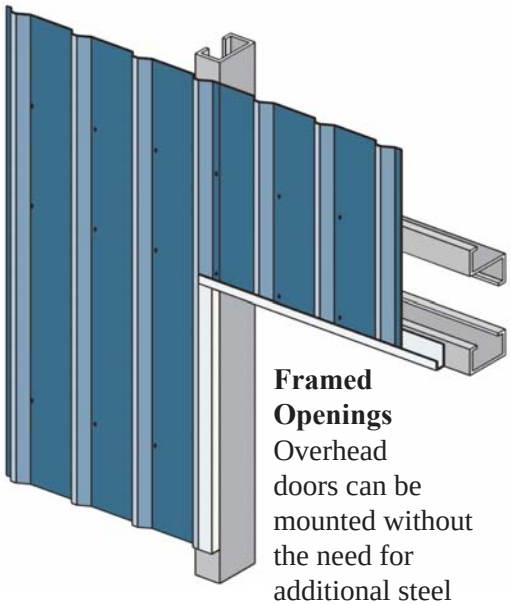


Base Trim (optional)
Provides maximum weather protection and long life due to a Galvalume base angle and a unique design.



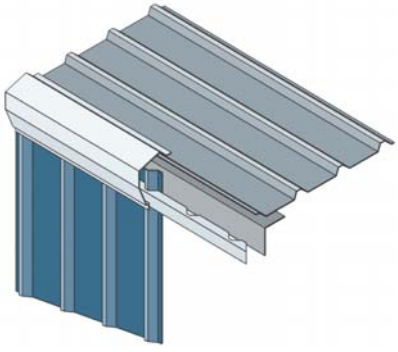
Corner Trim
An oversized design and rigid-rib construction results in beauty and strength



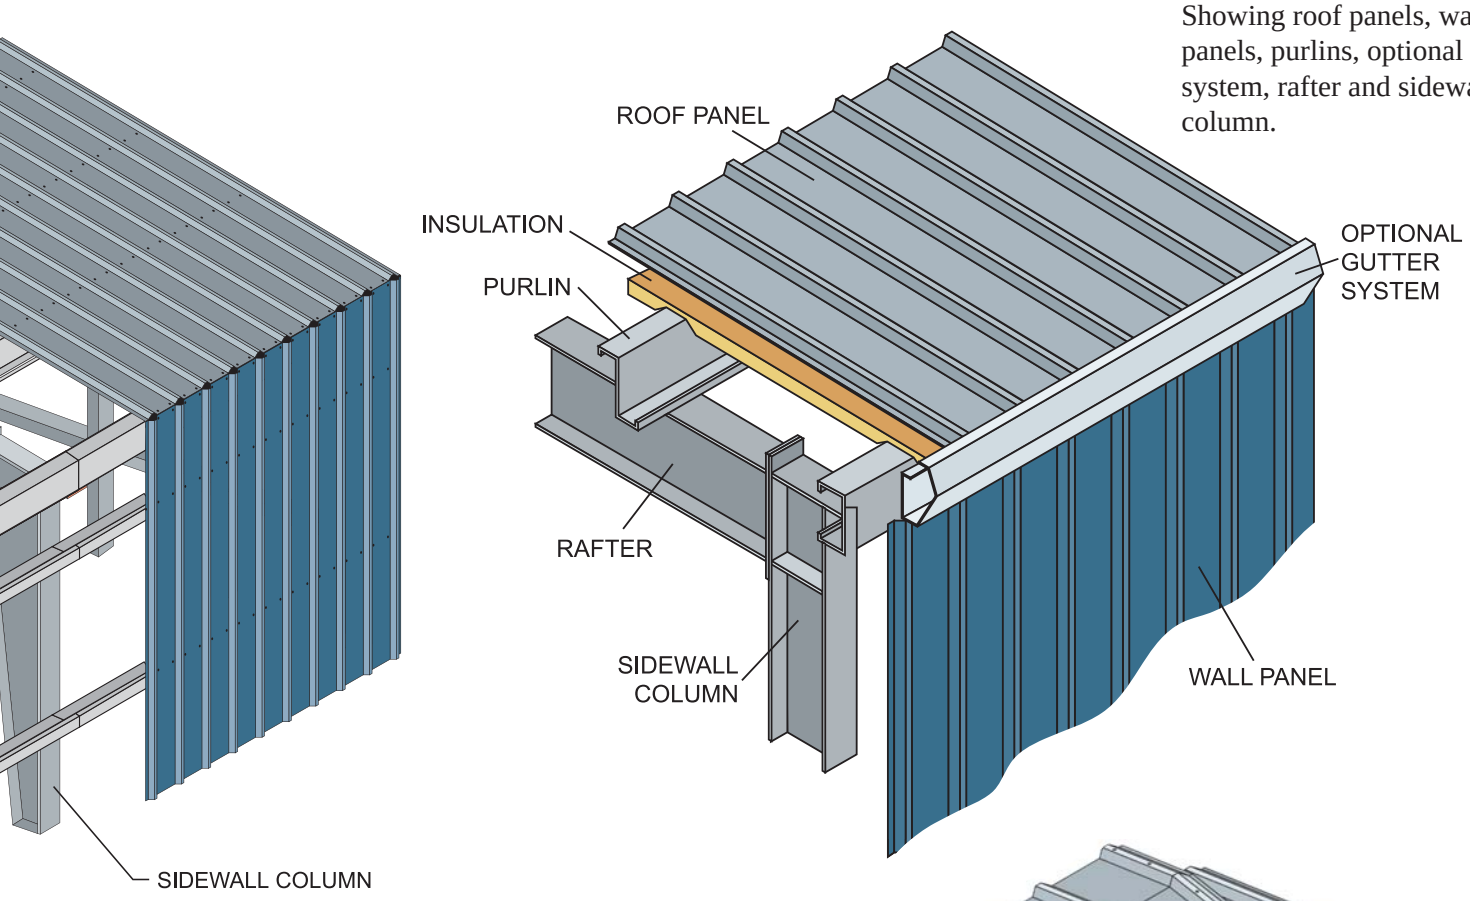


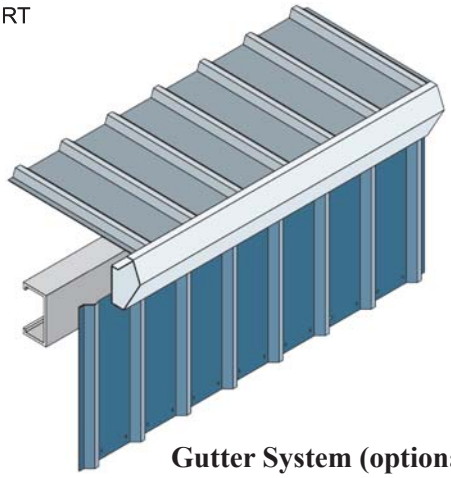
Framed Openings
Overhead doors can be mounted without the need for additional steel or hardware.

Roof Panels
Rigid rib panels are designed for long-life and are pre-cut to building dimensions.

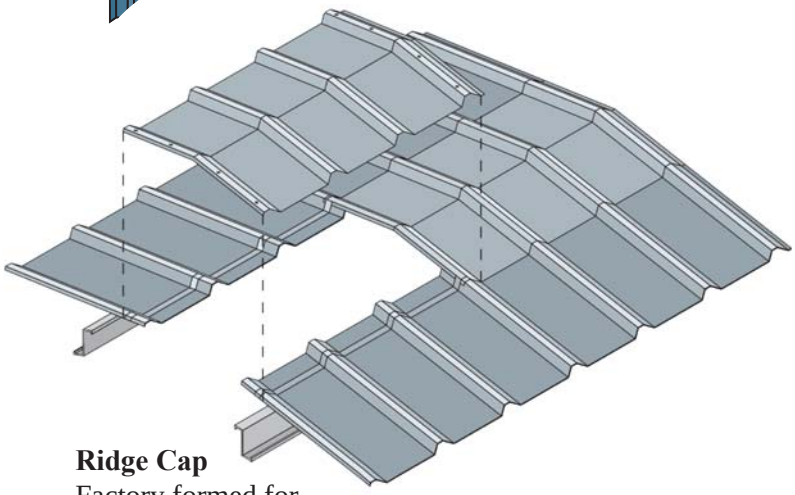


Cut-Away View
Showing roof panels, wall panels, purlins, optional gutter system, rafter and sidewall column.

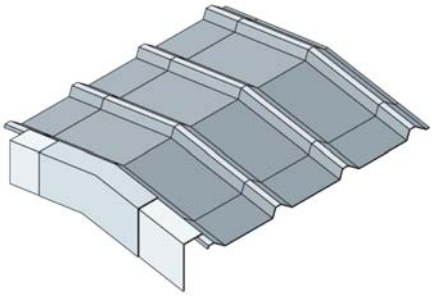




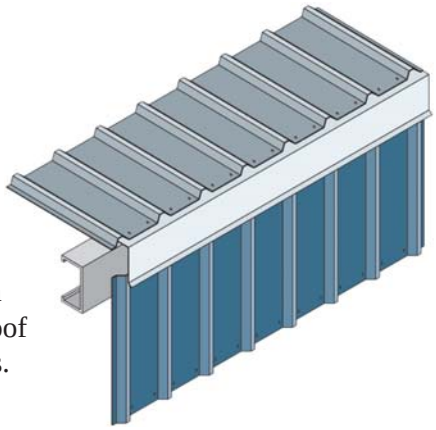
Gutter System (optional)
The contour design efficiently controls drainage from rain and snow over doors.



Ridge Cap
Factory formed for easy installation with a high-rib design for severe weather.



Ridge Cap with Peak Box
Factory formed for easy installation. High-rib design for severe weather.



Eave Trim
Oversized architectural trim combines with roof and wall closures.
