Testimonials from Satisfied Owners of ARMOR® Steel Buildings ...

**Dan Myers, President of Colorado Steel Systems,
ARMOR Master Builder**

"Hello, I'm Dan Myers, President of Colorado Steel Systems and we are proud to be an 'Authorized Master Builder' for ARMOR Steel Buildings. Not Master, like our great Lord and Master, but simply a Master Builder due to the experience and knowledge we have gained from ARMOR Steel Buildings in serving our local steel building clients and General Contractors. Read what our clients, other Master Builders and Non-Profits have to say about ARMOR Steel Buildings" – Dan Myers

OFFICE / WAREHOUSE

Gerald H. Phipps Construction: CFO - Kevin Bard says:

"We just happened to purchase land for our new construction yard in one of the most difficult cities in America - Aurora, Colorado. Armor Steel and their Builder, Colorado Steel Systems was able to get our 2 story office/warehouse building project designed, manufactured, delivered and completed, in 6-7 months, when a job of this size and complexity would normally take 12 months or more to complete. We have already given them more projects!"

OFFICE / EQUESTRIAN

Senator Tom J. Wiens says:

"Well, we had 5 ft. of snow, and actually several of our neighbors barns collapsed some other people even in the cutting horse business had terrible tragic results in their steel buildings. Amazingly, even with the huge 6 - 7' drifts on the roof and around the building, we were structurally sound through the whole big storm, so we're very grateful that we made the decision that we made."

COMMERICAL / DEVELOPMENT

Leigh Industries, North Dakota – Owner, Mic Leigh says:

"I've bought several Buildings over the last 10 years. I've use their buildings from developing high end commercial and retail steel buildings in Colorado to my personal residence and work shop in Sterling, North Dakota. I keep coming back for one primary reason. They do what they say and they say what they do! I buy from them because of the honesty and integrity of the company and product"

CHURCH / CHARITY NETWORK CLIENT

Spring Valley Church - Pastor Tim Buchanan says:

"Thank you for ALL the help thru the whole process to make this community church possible. I want to thank you both personally and on behalf of our congregation and Children. As a Church we are designating the extra funds for a playground! Thank You again, God Bless you All!

EQUESTRIAN

Equestrian Center Owner & Home Builder - Chuck Joyce says:

"I'm a home builder in Colorado Springs, Colorado and I find that the Armor Steel Building's for our Equestrian center, was a lot easier as far as putting up then a home. The buildings just looks great. When people come up they are very impressed with the looks, strength and size!! I unfortunately had bought my first steel building from a discount phone broker and the bad experience was very expensive. With Armor,

being comfortable, knowing that I had someone behind me, that it wasn't just a sale, it wasn't just a dollar."

RIDING ARENA / BARN / CHARITY NETWORK CLIENT

Colorado Horse Rescue, Longmont, Colorado - George Pratt says:

"Being a Horse lover non-profit foundation, it was difficult getting someone to work with us that was willing to be straightforward, helpful and walk us thru the process, with out trying to take advantage of us. Working with Armor and affiliates was a real blessing. They not only helped us with the design of the buildings, construction budgets and everything else, they made a sizable donation to support our work as well!"

NASCAR SPEEDWAY

Colorado National Speedway - Dave Gamel says:

"Just like NASCAR, the Structural integrity of these buildings seems to be superior. We just had a 3 ft. snowstorm about 4 weeks ago, where we had absolute no damage to any of these buildings. I have some other structures on this property, that were 8-10 years old and we had 3 or 4 roofs collapse on those. I highly recommend going through Armor Steel."

RESIDENTIAL / APARTMENT / HORSE BARN

Owner - Steve Moore says:

"Our Apartment building is a two-story about a 1400 sq. ft. two bedroom apartment it was incorporated into the arena building, so it's a great apartment, it's got heated slab floor, two bedrooms upstairs, two and a half bathrooms, very open kind of design on the first floor ... When it comes to **value and budget**, we did some serious shopping before we bought this building, and one of our primary drivers was a budget. We wanted a lot, we wanted a really good quality building, so by the time the building was actually standing I feel like that purchase price in total, and was **very very reasonable**.

WAREHOUSE / CHARITY NETWORK CLIENT

Voice of God Recordings, Jeffersonville, Indiana - Joseph Branham says:

"I appreciate all your help, in getting us the best possible price on our new building. I have been evaluating the extent of the whole project and trying to determine the bottom line of what we could do. You certainly have been generous to work with us in the way you have, which has helped make a huge project like this a reality, I can not find sufficient words to express my gratitude to you, my friends, for your generous contributions to The Voice of God Recordings ..."

ARENA / BARN FOR CHRISTIAN CAMP / CHARITY NETWORK CLIENT

Miracle Mountain Ranch Missions, Spring Creek, Pennsylvania - Lew Sterrett says:

"I can't tell you what a blessing and help you've been! Your help with our 174' x 232' arena and barns, lifted my load immensely, by helping us not only with your financial support, but also with your wise counsel. I am much encouraged and honored to have you involved. Again, what a blessing you've been, people who follow thru really lift the load. Thank **you so very much for your kindness and wisdom**.
Thanks and God Bless."

CHURCH / CHARITY NETWORK CLIENT

Beth Eden Baptist Church - Rev. Frank Curtis says:

"I wanted you to know how pleased we were at your personal presence for our ground breaking at Camp Eden. The personal interest of your staff in our project is very gratifying and beyond the call of duty! We also want to express our thanks for your extremely competitive bid on the steel building and especially the generous financial gift to assist with the construction. We trust, as the building is used to reach the community with the Gospel of Jesus Christ through the camp ministry, that your participation will result in joy in your life's and the salvation of many souls.

ARMOR MASTER BUILDER

OEC Construction, Montrose, Colorado - Cory Noles says:

"The Armor Steel Product & features as a whole is simply impressive. I have been around and erected almost every brand of steel building out there and with out a doubt, Armor Steel is the best fabricated, easy to erect and all around cleanest product on the market."

STEEL ERECTOR

Steel Erector - Jason Harding says:

"They mark their steel in a way that you can see it, and actually read what the numbers say, you know most companies will actually fade out with weather, these won't. The building is always delivered on time and on schedule which is really nice. I know that some companies delay buildings and that throws our whole construction schedule and the whole money deal off."

CONTRACTOR

Contractor - Greg Maxwell says:

"The building being pre-engineered and ready to assemble, it's a lot easier than trying to field fabricate things. It goes real smooth because it's kind of like a snap-together once you get it. It saves money because it's speedy!"

ARMOR Steel Buildings, Inc.
